RE: Sinoboom approval

Dear Andrew

Sinoboom provides secondary guarding on all slab scissorlifts as a standard feature for 2024 with the Overwatch system by EQSS being one of our approved systems. We have worked with EQSS to offer a production version of the system.

The overwatch systems have been approved for use in the field by Sinoboom on the basis that we are satisfied that the systems have no adverse effects on our control systems. This letter only addresses the installation and use of the system on Sinoboom products and at no stage is it providing any form of approval of the internal workings of the overwatch system itself. This approval is only valid if the systems have been installed by accredited installer approved by EQSS and Sinoboom and in accordance with the installation instruction developed in partnership between the two companies.

If you require any further information, please do not hesitate to reach out to me at any time.

Yours sincerely

Mitch Ely
General Manager
Sinoboom Intelligent Equipment Pty Ltd.
